Datasheet for ABIN7160484

**anti-MYADM antibody (AA 1-40) (FITC)**

## Overview

|                      |   |
|----------------------|---|
| Quantity:            | 100 µg                                    |
| Target:              | MYADM                                     |
| Binding Specificity: | AA 1-40                                   |
| Reactivity:          | Human                                     |
| Host:                | Rabbit                                    |
| Clonality:           | Polyclonal                                |
| Conjugate:           | This MYADM antibody is conjugated to FITC |
| Application:         | Please inquire                            |

## Product Details

|                   |  |
|-------------------|--|
| Immunogen:        | Recombinant Human Myeloid-associated differentiation marker protein (1-40AA) |
| Isotype:          | IgG  |
| Cross-Reactivity: | Human  |
| Purification:     | >95%, Protein G purified   |

## Target Details

|                   |   |
|-------------------|---|
| Target:           | MYADM   |
| Alternative Name: | MYADM ( <a href="#">MYADM Products</a> )  |
| Background:       | Background: cell-cell junction, cortical actin cytoskeleton, extracellular exosome, membrane raft, plasma membrane, ruffle, establishment of endothelial barrier, membrane raft |

## Target Details

organization, negative regulation of actin filament polymerization, negative regulation of gene expression

Aliases: myadm antibody, MYADM\_HUMAN antibody, myeloid associated differentiation marker antibody, Myeloid upregulated protein antibody, Myeloid-associated differentiation marker antibody, Protein SB135 antibody, SB135 antibody

UniProt: [Q96S97](#)

## Application Details

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Preservative: 0.03 % Proclin 300  
Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C, -80 °C

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
