Datasheet for ABIN7164424  
**anti-HECTD2 antibody (AA 674-776) (Biotin)**

### Overview

|                      |                                              |
|----------------------|----------------------------------------------|
| Quantity:            | 100 µg                                       |
| Target:              | HECTD2                                       |
| Binding Specificity: | AA 674-776                                   |
| Reactivity:          | Human                                        |
| Host:                | Rabbit                                       |
| Clonality:           | Polyclonal                                   |
| Conjugate:           | This HECTD2 antibody is conjugated to Biotin |
| Application:         | ELISA                                        |

### Product Details

|                   |                                                                                   |
|-------------------|-----------------------------------------------------------------------------------|
| Immunogen:        | Recombinant Human Probable E3 ubiquitin-protein ligase HECTD2 protein (674-776AA) |
| Isotype:          | IgG                                                                               |
| Cross-Reactivity: | Human                                                                             |
| Purification:     | >95%, Protein G purified                                                          |

### Target Details

|                   |                                                                                                                                                                                          |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | HECTD2                                                                                                                                                                                   |
| Alternative Name: | HECTD2 ( <a href="#">HECTD2 Products</a> )                                                                                                                                               |
| Background:       | Background: Probable E3 ubiquitin-protein ligase which accepts ubiquitin from an E2 ubiquitin-conjugating enzyme in the form of a thioester and then directly transfers the ubiquitin to |

## Target Details

---

targeted substrates.

Aliases: FLJ16050 antibody, FLJ37306 antibody, HECD2\_HUMAN antibody, HECT domain containing 2 antibody, HECT domain containing protein 2 antibody, HECT domain-containing protein 2 antibody, Hectd2 antibody, OTTHUMP00000020086 antibody, OTTHUMP00000038605 antibody, Probable E3 ubiquitin protein ligase HECTD2 antibody, Probable E3 ubiquitin-protein ligase HECTD2 antibody

---

UniProt: [Q5U5R9](#)

---

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Liquid

---

Buffer: Preservative: 0.03 % Proclin 300  
Constituents: 50 % Glycerol, 0.01M PBS, pH 7.4

---

Preservative: ProClin

---

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

---

Storage: -20 °C,-80 °C

---

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.

---
