Product Details

Immunogen:	Recombinant Human Rab proteins geranylgeranyltransferase component A 2 protein (480-656AA)	
Isotype:	IgG	
Cross-Reactivity:	Human	
Purification:	>95%, Protein G purified	

Target Details

Target:	CHML
Alternative Name:	CHML (CHML Products)
Background: Background: Substrate-binding subunit (component A) of the Rab geranylgeranyltransfera	

Target Details

(GGTase) complex. Binds unprenylated Rab proteins and presents the substrate peptide to the catalytic component B. The component A is thought to be regenerated by transferring its prenylated Rab back to the donor membrane. Less effective than CHM in supporting prenylation of Rab3 family.
