

Datasheet for ABIN7167237  
**anti-RAB1A antibody (AA 2-205) (Biotin)**

[Go to Product page](#)

## Overview

|                      |                                             |
|----------------------|---------------------------------------------|
| Quantity:            | 100 µg                                      |
| Target:              | RAB1A                                       |
| Binding Specificity: | AA 2-205                                    |
| Reactivity:          | Human                                       |
| Host:                | Rabbit                                      |
| Clonality:           | Polyclonal                                  |
| Conjugate:           | This RAB1A antibody is conjugated to Biotin |
| Application:         | ELISA                                       |

## Product Details

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Immunogen:        | Recombinant Human Ras-related protein Rab-1A protein (2-205AA) |
| Isotype:          | IgG                                                            |
| Cross-Reactivity: | Human                                                          |
| Purification:     | >95%, Protein G purified                                       |

## Target Details

|                   |                                                                                                                                                           |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | RAB1A                                                                                                                                                     |
| Alternative Name: | RAB1A ( <a href="#">RAB1A Products</a> )                                                                                                                  |
| Background:       | Background: Probably required for transit of protein from the ER through Golgi compartment.<br>Binds GTP and GDP and possesses intrinsic GTPase activity. |

## Target Details

Aliases: GTP binding protein RAB 1A antibody, mKIAA3012 antibody, RAB 1 antibody, Rab 1A antibody, RAB1 antibody, RAB1, member RAS oncogene family antibody, Rab1A antibody, RAB1A member RAS oncogene family antibody, RAB1A\_HUMAN antibody, Ras related protein Rab 1A antibody, Ras-associated protein RAB1 antibody, Ras-related protein Rab-1A antibody, YPT1 antibody, YPT1 related protein antibody, YPT1-related protein antibody

UniProt: [P62820](#)

Pathways: [SARS-CoV-2 Protein Interactome](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Preservative: 0.03 % Proclin 300  
Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C,-80 °C

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
