anti-HTRA1 antibody (AA 23-248) (HRP)

Overview

Quantity:	100 μL
Target:	HTRA1
Binding Specificity:	AA 23-248
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This HTRA1 antibody is conjugated to HRP
Application:	ELISA

Product Details

Immunogen:	Recombinant Human Serine protease HTRA1 protein (23-248AA)
Isotype:	IgG
Cross-Reactivity:	Human
Purification:	>95%, Protein G purified

Target Details

Target:	HTRA1
Alternative Name:	HTRA1 (HTRA1 Products)
Background:	Background: Serine protease with a variety of targets, including extracellular matrix proteins
	such as fibronectin. HTRA1-generated fibronectin fragments further induce synovial cells to up-

regulate MMP1 and MMP3 production. May also degrade proteoglycans, such as aggrecan, decorin and fibromodulin. Through cleavage of proteoglycans, may release soluble FGF-glycosaminoglycan complexes that promote the range and intensity of FGF signals in the extracellular space. Regulates the availability of insulin-like growth factors (IGFs) by cleaving IGF-binding proteins. Inhibits signaling mediated by TGF-beta family members. This activity requires the integrity of the catalytic site, although it is unclear whether TGF-beta proteins are themselves degraded. By acting on TGF-beta signaling, may regulate many physiological processes, including retinal angiogenesis and neuronal survival and maturation during development. Intracellularly, degrades TSC2, leading to the activation of TSC2 downstream targets.

Aliases: ARMD7 antibody, CARASIL antibody, High-temperature requirement A serine peptidase 1 antibody, HtrA antibody, HtrA serine peptidase 1 antibody, HTRA1 antibody, HTRA1_HUMAN antibody, IGFBP5 protease antibody, L56 antibody, ORF480 antibody, Protease serine 11 (IGF binding) antibody, protease serine 11 antibody, PRSS11 antibody, Serine protease 11 antibody, Serine protease HTRA1 antibody, Serine protease HTRA1 precursor antibody

UniProt: Q92743

Pathways: Growth Factor Binding

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format:	Liquid
Buffer:	Preservative: 0.03 % Proclin 300 Constituents: 50 % Glycerol, 0.01M PBS, pH 7.4
Preservative:	ProClin
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	-20 °C,-80 °C
Storage Comment:	Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
