## **anti-TCP1 alpha/CCTA antibody (AA 134-353) (Biotin)**

[Go to Product page](#)

### Overview

|                      |                                                       |
|----------------------|-------------------------------------------------------|
| Quantity:            | 100 µg                                                |
| Target:              | TCP1 alpha/CCTA (TCP1)                                |
| Binding Specificity: | AA 134-353                                            |
| Reactivity:          | Human                                                 |
| Host:                | Rabbit                                                |
| Clonality:           | Polyclonal                                            |
| Conjugate:           | This TCP1 alpha/CCTA antibody is conjugated to Biotin |
| Application:         | ELISA                                                 |

### Product Details

|                   |                                                                     |
|-------------------|---------------------------------------------------------------------|
| Immunogen:        | Recombinant Human T-complex protein 10A homolog protein (134-353AA) |
| Isotype:          | IgG                                                                 |
| Cross-Reactivity: | Human                                                               |
| Purification:     | >95%, Protein G purified                                            |

### Target Details

|                   |                                                                         |
|-------------------|-------------------------------------------------------------------------|
| Target:           | TCP1 alpha/CCTA (TCP1)                                                  |
| Alternative Name: | TCP1 ( <a href="#">TCP1 Products</a> )                                  |
| Background:       | TCP10 antibody, TCP10A antibody, T-complex protein 10A homolog antibody |
| UniProt:          | <a href="#">Q12799</a>                                                  |

## Application Details

---

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--------------------------------------------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|         |        |
|---------|--------|
| Format: | Liquid |
|---------|--------|

|         |                                                                                    |
|---------|------------------------------------------------------------------------------------|
| Buffer: | Preservative: 0.03 % Proclin 300<br>Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4 |
|---------|------------------------------------------------------------------------------------|

|               |         |
|---------------|---------|
| Preservative: | ProClin |
|---------------|---------|

|                    |                                                                                                                   |
|--------------------|-------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|-------------------------------------------------------------------------------------------------------------------|

|          |               |
|----------|---------------|
| Storage: | -20 °C,-80 °C |
|----------|---------------|

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| Storage Comment: | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze. |
|------------------|---------------------------------------------------------------|
