**anti-TAZ antibody (AA 95-262) (HRP)**[Go to Product page](#)

## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 100 µg                                 |
| Target:              | TAZ                                    |
| Binding Specificity: | AA 95-262                              |
| Reactivity:          | Human                                  |
| Host:                | Rabbit                                 |
| Clonality:           | Polyclonal                             |
| Conjugate:           | This TAZ antibody is conjugated to HRP |
| Application:         | ELISA                                  |

## Product Details

|                   |                                                      |
|-------------------|------------------------------------------------------|
| Immunogen:        | Recombinant Human Tafazzin family protein (95-262AA) |
| Isotype:          | IgG                                                  |
| Cross-Reactivity: | Human                                                |
| Purification:     | >95%, Protein G purified                             |

## Target Details

|                   |                                                                                                               |
|-------------------|---------------------------------------------------------------------------------------------------------------|
| Target:           | TAZ                                                                                                           |
| Alternative Name: | TAZ ( <a href="#">TAZ Products</a> )                                                                          |
| Background:       | Background: Some isoforms may be involved in cardiolipin metabolism.<br>Aliases: Tafazzin family protein, TAZ |

## Target Details

---

UniProt: [F6Y2X3](#)

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Buffer: Preservative: 0.03 % Proclin 300  
Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C,-80 °C

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
