**anti-GPR17 antibody (AA 1-36) (Biotin)**[Go to Product page](#)

## Overview

|                      |                                             |
|----------------------|---------------------------------------------|
| Quantity:            | 100 µg                                      |
| Target:              | GPR17                                       |
| Binding Specificity: | AA 1-36                                     |
| Reactivity:          | Human                                       |
| Host:                | Rabbit                                      |
| Clonality:           | Polyclonal                                  |
| Conjugate:           | This GPR17 antibody is conjugated to Biotin |
| Application:         | ELISA                                       |

## Product Details

|                   |                                                                                     |
|-------------------|-------------------------------------------------------------------------------------|
| Immunogen:        | Recombinant Human Uracil nucleotide/cysteinyl leukotriene receptor protein (1-36AA) |
| Isotype:          | IgG                                                                                 |
| Cross-Reactivity: | Human                                                                               |
| Purification:     | >95%, Protein G purified                                                            |

## Target Details

|                   |                                                                                                                                                                                           |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | GPR17                                                                                                                                                                                     |
| Alternative Name: | GPR17 ( <a href="#">GPR17 Products</a> )                                                                                                                                                  |
| Background:       | Background: Dual specificity receptor for uracil nucleotides and cysteinyl leukotrienes (CysLTs).<br>Signals through G(i) and inhibition of adenylyl cyclase. May mediate brain damage by |

## Target Details

nucleotides and CysLTs following ischemia.

Aliases: DKFZp686M18273 antibody, G protein coupled receptor 17 antibody, G-protein coupled receptor 17 antibody, GPR 17 antibody, Gpr17 antibody, GPR17\_HUMAN antibody, P2Y like receptor antibody, P2Y-like receptor antibody, Probable P2Y purinoceptor GPR 17 antibody, Probable P2Y purinoceptor GPR17 antibody, R12 antibody, UDP/CysLT receptor antibody, Uracil nucleotide/cysteinyl leukotriene receptor antibody

UniProt: [Q13304](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Preservative: 0.03 % Proclin 300  
Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4

Preservative: ProClin

Precaution of Use: This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C,-80 °C

Storage Comment: Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.
