Datasheet for ABIN7177495 anti-HSPA1B antibody (AA 2-642) (FITC)

antibodies.com

Overview

| Quantity:            | 100 µg                                     |
|----------------------|--|
| Target:              | HSPA1B                                     |
| Binding Specificity: | AA 2-642                                   |
| Reactivity:          | Mouse                                      |
| Host:                | Rabbit                                     |
| Clonality:           | Polyclonal                                 |
| Conjugate:           | This HSPA1B antibody is conjugated to FITC |
| Application:         | Please inquire                             |

## Product Details

| Immunogen:        | Recombinant Mouse Heat shock 70 kDa protein 1B protein (2-642AA) |
|-------------------|--|
| Isotype:          | lgG  |
| Cross-Reactivity: | Mouse  |
| Purification:     | >95%, Protein G purified   |

## Target Details

| Target:           | HSPA1B   |
|-------------------|--|
| Alternative Name: | Hspa1b (HSPA1B Products)   |
| Background:       | Background: In cooperation with other chaperones, Hsp70s stabilize preexistent proteins        |
|                   | against aggregation and mediate the folding of newly translated polypeptides in the cytosol as |

|                     | well as within organelles. These chaperones participate in all these processes through their<br>ability to recognize nonnative conformations of other proteins. They bind extended peptide<br>segments with a net hydrophobic character exposed by polypeptides during translation and<br>membrane translocation, or following stress-induced damage. Essential for STUB1-mediated<br>ubiquitination and degradation of FOXP3 in regulatory T-cells (Treg) during inflammation.<br>Aliases: Hspa1b antibody, Hcp70.1 antibody, Hsp70-1 antibody, Hsp70a1 antibody, Hspa1 |

|                     | antibody, Heat shock 70 kDa protein 1B antibody, Heat shock 70 kDa protein 1 antibody,<br>HSP70.1 antibody   |
| UniProt:            | P17879   |
| Application Details |  |
| Restrictions:       | For Research Use only  |
| Handling            |  |
| Format:             | Liquid   |
| Buffer:             | Preservative: 0.03 % Proclin 300<br>Constituents: 50 % Glycerol, 0.01M PBS, PH 7.4   |
| Preservative:       | ProClin  |
| Precaution of Use:  | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.  |
| Storage:            | -20 °C,-80 °C  |
| Storage Comment:    | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.  |
