## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µg                               |
| Target:              | CENPA                                |
| Binding Specificity: | N-Term                               |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This CENPA antibody is un-conjugated |
| Application:         | ELISA, Immunohistochemistry (IHC)    |

## Product Details

|                   |                                                                                                                       |
|-------------------|-----------------------------------------------------------------------------------------------------------------------|
| Immunogen:        | Synthesized peptide derived from the N-terminal region of Human CENP-A.                                               |
| Isotype:          | IgG                                                                                                                   |
| Cross-Reactivity: | Human                                                                                                                 |
| Purification:     | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |

## Target Details

|                   |                                                                                    |
|-------------------|------------------------------------------------------------------------------------|
| Target:           | CENPA                                                                              |
| Alternative Name: | CENPA ( <a href="#">CENPA Products</a> )                                           |
| Background:       | CENP A antibody, CENP-A antibody, cenpa antibody, CENPA_HUMAN antibody, Centromere |

## Target Details

|           |                                                                                                                                                                                             |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | autoantigen A antibody, Centromere protein A 17 kDa antibody, Centromere protein A antibody, Histone H3 like centromeric protein A antibody, Histone H3-like centromeric protein A antibody |
| UniProt:  | <a href="#">P49450</a>                                                                                                                                                                      |
| Pathways: | <a href="#">Chromatin Binding</a> , <a href="#">Maintenance of Protein Location</a>                                                                                                         |

## Application Details

|                    |                                |
|--------------------|--------------------------------|
| Application Notes: | IHC:1:100-1:300, ELISA:1:5000, |
| Restrictions:      | For Research Use only          |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Liquid in PBS containing 50 % glycerol, 0.5 % BSA and 0.02 % sodium azide.                                             |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                          |
| Storage Comment:   | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                          |
