**anti-Acetyl-TP53(K382) (acLys382) antibody****3** Images[Go to Product page](#)

## Overview

|                      |                                   |
|----------------------|-----------------------------------|
| Quantity:            | 100 µg                            |
| Target:              | Acetyl-TP53(K382)                 |
| Binding Specificity: | acLys382                          |
| Reactivity:          | Human                             |
| Host:                | Mouse                             |
| Clonality:           | Monoclonal                        |
| Application:         | ELISA, Immunohistochemistry (IHC) |

## Product Details

|                   |                   |
|-------------------|-------------------|
| Immunogen:        | Synthetic Peptide |
| Isotype:          | IgG               |
| Cross-Reactivity: | Human, Mouse, Rat |
| Purification:     | Affinity purified |

## Target Details

|             |                                                                                           |
|-------------|-------------------------------------------------------------------------------------------|
| Target:     | Acetyl-TP53(K382)                                                                         |
| Background: | Cellular tumor antigen p53 (Antigen NY-CO-13) (Phosphoprotein p53) (Tumor suppressor p53) |
| UniProt:    | <a href="#">P04637</a>                                                                    |

# Application Details

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Recommended dilution:IHC:1:50-1:200,                                                                                   |
| Restrictions:      | For Research Use only                                                                                                  |
| Handling           |                                                                                                                        |
| Format:            | Liquid                                                                                                                 |
| Buffer:            | PBS, pH 7.4, containing 0.02 % sodium azide as Preservative and 50 % Glycerol.                                         |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C,-80 °C                                                                                                          |
| Storage Comment:   | Upon receipt, store at -20°C or -80°C. Avoid repeated freeze.                                                          |
