| Quantity:            | 100 μL                                                                                                  |
|----------------------|---------------------------------------------------------------------------------------------------------|
| Target:              | El24                                                                                                    |
| Binding Specificity: | AA 251-340                                                                                              |
| Reactivity:          | Human                                                                                                   |
| Host:                | Rabbit                                                                                                  |
| Clonality:           | Polyclonal                                                                                              |
| Conjugate:           | This EI24 antibody is conjugated to FITC                                                                |
| Application:         | Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)) |

#### **Product Details**

| Immunogen:                                              | KLH conjugated synthetic peptide derived from human TP53I8/EI24 |  |
|---------------------------------------------------------|-----------------------------------------------------------------|--|
| Isotype:                                                | IgG                                                             |  |
| Predicted Reactivity: Human,Mouse,Rat,Dog,Cow,Pig,Horse |                                                                 |  |
| Purification:                                           | Purified by Protein A.                                          |  |

#### **Target Details**

| Target:                                                                                        | El24                 |
|------------------------------------------------------------------------------------------------|----------------------|
| Alternative Name:                                                                              | EI24 (EI24 Products) |
| Background: Synonyms: Ei24, EI24_HUMAN, EPG4, Etoposide induced 2.4 mRNA, Etoposide-induced pr |                      |

2.4 homolog, p53-induced gene 8 protein, PIG8, TP53I8, Tumor protein p53 inducible protein 8. Background: This gene has higher expression in p53-expressing cells than in control cells and is an immediate-early induction target of p53-mediated apoptosis. The protein encoded by this gene contains six putative transmembrane domains and may suppress cell growth by inducing apoptotic cell death through the caspase 9 and mitochondrial pathways. This gene is located on human chromosome 11q24, a region frequently altered in cancers. Alternative splicing results in two transcript variants encoding different isoforms. [provided by RefSeq, Jul 2008].

Gene ID:

9538

#### **Application Details**

| Restrictions:      | For Research Use only |
|--------------------|-----------------------|

|                    | IF(IHC-F) 1:50-200    |
| Application Notes: | IF(IHC-P) 1:50-200    |

### Handling

| Format:            | Liquid                                                                                                             |
|--------------------|--------------------------------------------------------------------------------------------------------------------|
| Concentration:     | 1 μg/μL                                                                                                            |
| Buffer:            | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.         |
| Preservative:      | ProClin                                                                                                            |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                             |
| Storage Comment:   | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                  |
| Expiry Date:       | 12 months                                                                                                          |
