**anti-TOLLIP antibody**[Go to Product page](#)**1** Image

## Overview

Quantity:	100 µg
Target:	TOLLIP
Reactivity:	Human, Mouse
Host:	Rat
Clonality:	Monoclonal
Conjugate:	This TOLLIP antibody is un-conjugated
Application:	Western Blotting (WB), Immunoprecipitation (IP)

## Product Details

Immunogen:	Recombinant mouse Tollip.
Clone:	Kimmy-1
Isotype:	IgG2a
Characteristics:	Tollip monoclonal antibody (Kimmy-1)
Purification:	Purified from hybridoma tissue culture supernatant.

## Target Details

Target:	TOLLIP
Alternative Name:	Tollip ( <a href="#">TOLLIP Products</a> )
UniProt:	<a href="#">Q9QZ06</a>

## Application Details

Application Notes: Western Blot (5 µg/mL) Suggested dilutions/conditions may not be available for all applications. Optimal conditions must be determined individually for each application.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Liquid. In PBS containing 0.02 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Avoid freeze/thaw cycles.

Storage: -20 °C

Storage Comment: Stable for at least 6 months after receipt when stored at -20°C undiluted.

Expiry Date: 6 months

## Images

### Western Blotting

**Image 1.** Detection of endogenous tollip in murine EL-4. Optimal dilution of Kimmy-1 is between 1-5 µg/mL. Extracts should be made from approximately 106 -107 cells. Method: RIPA buffer extracts from 1.5x106 EL-4 cells were resolved by SDS-PAGE under reducing conditions, transferred to nitrocellulose and incubated with Kimmy-1 at a dilution of 5 µg/mL. Proteins were visualized using a peroxidase-conjugated antibody to rat IgG and a chemiluminescence detection system.
