

## Datasheet for ABIN7232589 **anti-TIM3 antibody**

[Go to Product page](#)

### Overview

|              |                                     |
|--------------|-------------------------------------|
| Quantity:    | 200 µL                              |
| Target:      | TIM3 (TIM 3)                        |
| Reactivity:  | Human                               |
| Host:        | Mouse                               |
| Clonality:   | Monoclonal                          |
| Conjugate:   | This TIM3 antibody is un-conjugated |
| Application: | ELISA                               |

### Product Details

|              |                                                                     |
|--------------|---------------------------------------------------------------------|
| Purpose:     | Anti-Human TIM-3 Monoclonal Antibody, Azide Free Clone B-N43        |
| Immunogen:   | Recombinant Human TIM-3/Fc, Myeloma X63/AG.8653 x Balb/c node cells |
| Clone:       | B-N43                                                               |
| Isotype:     | IgG1 kappa                                                          |
| Specificity: | Recognises natural and recombinant human TIM-3                      |

### Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | TIM3 (TIM 3)                             |
| Alternative Name: | TIM-3 ( <a href="#">TIM 3 Products</a> ) |
| Target Type:      | Virus                                    |
| Background:       | HAVCR2 / CD366                           |

Target Details

Pathways: [Regulation of Lipid Metabolism by PPARAlpha, Cancer Immune Checkpoints](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Buffer: Phosphate-buffered saline. Sterile-filtered through 0.22 µm. Carrier and preservative free.

Preservative: Without preservative

Storage: 4 °C

Storage Comment: Stable at +2-8°C for 12 months. For longer storage freeze aliquots.
