# Datasheet for ABIN7269654 anti-PRKAB1 antibody

5 Images

### Overview

| Quantity:    | 100 μL                                                                     |
|--------------|----------------------------------------------------------------------------|
| Target:      | PRKAB1                                                                     |
| Reactivity:  | Human                                                                      |
| Host:        | Rabbit                                                                     |
| Clonality:   | Monoclonal                                                                 |
| Conjugate:   | This PRKAB1 antibody is un-conjugated                                      |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF) |

## Product Details

| Purpose:          | AMPKβ1 Rabbit mAb                                  |
|-------------------|----------------------------------------------------|
| Immunogen:        | A synthesized peptide derived from human AMPKbeta1 |
| Isotype:          | lgG                                                |
| Cross-Reactivity: | Human, Mouse, Rat                                  |
| Characteristics:  | Monoclonal Antibodies                              |
| Purification:     | Affinity purification                              |

## Target Details

| Target:           | PRKAB1                                                                                       |
|-------------------|----------------------------------------------------------------------------------------------|
| Alternative Name: | PRKAB1 (PRKAB1 Products)                                                                     |
| Background:       | The protein encoded by this gene is a regulatory subunit of the AMP-activated protein kinase |

|                   | 2008],AMPK, HAMPKb,AMPK Signaling                                                               |
|                   | molecule mediating the association of the AMPK complex. [provided by RefSeq, Jul                |
|                   | enzyme activity and cellular localization of AMPK. This subunit may also serve as an adaptor    |
|                   | activity. The myristoylation and phosphorylation of this subunit have been shown to affect the  |
|                   | biosynthesis of fatty acid and cholesterol. This subunit may be a positive regulator of AMPK    |
|                   | methylglutaryl-CoA reductase (HMGCR), key enzymes involved in regulating de novo                |
|                   | phosphorylates and inactivates acetyl-CoA carboxylase (ACC) and beta-hydroxy beta-              |
|                   | energy status. In response to cellular metabolic stresses, AMPK is activated, and thus          |
|                   | and gamma subunits. AMPK is an important energy-sensing enzyme that monitors cellular           |
|                   | (AMPK). AMPK is a heterotrimer consisting of an alpha catalytic subunit, and non-catalytic beta |

| Gene ID:  | 5564                           |
|-----------|--------------------------------|
| UniProt:  | Q9Y478                         |
| Pathways: | AMPK Signaling, Warburg Effect |

## Application Details

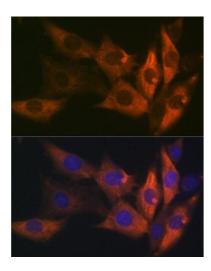

| Application Notes: | WB,1:500 - 1:2000,IHC,1:50 - 1:200,IF,1:50 - 1:200 |
|--------------------|----------------------------------------------------|
| Restrictions:      | For Research Use only                              |

## Handling

| Format:            | Liquid                                                                                                                 |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Buffer:            | PBS with 0.02 % sodium azide,0.05 % BSA,50 % glycerol, pH 7.3.                                                         |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |

#### Images

#### Immunofluorescence

**Image 1.** Immunofluorescence analysis of NIH-3T3 cells using AMPK $\beta$ 1 Rabbit mAb (ABIN7269654) at dilution of 1:100 (40x lens). Blue: DAPI for nuclear staining.

#### Western Blotting

**Image 2.** Western blot analysis of extracts of Mouse brain, using AMPKβ1 Rabbit mAb (ABIN7269654) at 1:1000 dilution.Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (ABIN1684268 and ABIN3020597) at 1:10000 dilution.Lysates/proteins: 25 μg per lane.Blocking buffer: 3 % nonfat dry milk in TBST.Detection: ECL Basic Kit (RM00020).Exposure time: 3 min.

#### **Western Blotting**

**Image 3.** Western blot analysis of extracts of various cell lines, using AMPKβ1 Rabbit mAb (ABIN7269654) at 1:1000 dilution.Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (ABIN1684268 and ABIN3020597) at 1:10000 dilution.Lysates/proteins: 25 μg per lane.Blocking buffer: 3 % nonfat dry milk in TBST.Detection: ECL Basic Kit (RM00020).Exposure time: 60s.

Please check the product details page for more images. Overall 5 images are available for ABIN7269654.
