

Datasheet for ABIN7271579

**3X Coding Buffer**[Go to Product page](#)Overview

---

Quantity: 30 mL

Product Details

---

Application Details

---

**Comment:** Please note that Coding Buffer is viscous. Store Coding Buffer (3X) at room temperature. To transfer volumes accurately, pipette slowly and do not pre-wet pipette tips. While adding Coding Buffer to reactions, mix reactions completely by pipetting up and down several times with the same pipette tip(s) used for addition. Always change pipette tips before adding Coding Buffer to different reactions.

**Restrictions:** For Research Use only

Handling

---

**Storage:** RT

**Storage Comment:** Store Coding Buffer (3X) at room temperature.
