Target Details Alternative Name: FCGR4 (FCGR4 Products) **Application Details** Optimal working dilution should be determined by the investigator. Application Notes: Restrictions: For Research Use only Handling Format: Lyophilized Buffer: Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4. Handling Advice: Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than 100 µg/mL. Dissolve the lyophilized protein in ddH20. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. -20 °C Storage: Storage Comment: Lyophilized protein should be stored at -20°C, though stable at room temperature for 3 weeks.

samples are stable at -20°C for 3 months.

Reconstituted protein solution can be stored at 2-8°C for 2-7 days. Aliquots of reconstituted
