## Datasheet for ABIN7319894 TACSTD2 Protein (His tag,Biotin)

2 Images

#### Overview

| Quantity:                     | 100 µg  |
|-------------------------------|---|
| Target:                       | TACSTD2   |
| Origin:                       | Human   |
| Source:                       | Human Cells   |
| Protein Type:                 | Recombinant   |
| Biological Activity:          | Active  |
| Purification tag / Conjugate: | This TACSTD2 protein is labelled with His tag,Biotin. |

#### Product Details

| Purpose:                     | Recombinant Human Tumor-associated Calcium Signal Transducer 2/TROP-2 (C-Avi-6His)<br>Biotinylated   |
|------------------------------|--|
| Sequence:                    | His27-Thr274   |
| Characteristics:             | Biotinylated Recombinant Human Tumor-associated Calcium Signal Transducer 2 is produced<br>by our Mammalian expression system and the target gene encoding His27-Thr274 is expressed<br>with a 6His tag at the N-terminus. |
| Purity:                      | >95 % as determined by reducing SDS-PAGE.  |
| Endotoxin Level:             | < 1.0 EU per $\mu$ g as determined by the LAL method.  |
| Biological Activity Comment: | Immobilized Biotinylated Human TROP-2-Avi-His(Cat#CY65) at 2µg/ml (100 µl/well) can bind Anti-Human TROP-2 mAb. The ED50 of Anti-Human TROP-2 mAb is 17.1 ng/ml.   |

#### Target Details

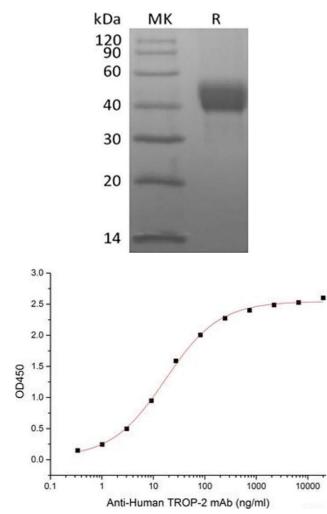

| Target:           | TACSTD2  |
|-------------------|--|
| Alternative Name: | TROP-2 (TACSTD2 Products)  |
| Background:       | <ul> <li>Background: Tumor associated calcium signal transducer 2 (TACSTD2, TROP-2) is a type I cell surface glycoprotein that is highly expressed on human carcinomas. It was originally identified as an antigen present on human gastrointestinal tumors and is the second of two members of this family. Human and mouse TROP-2 share 87 % amino acid (aa) similarity. TROP-2 is capable of transducing an intracellular calcium signal and may play a role in tumor growth. It also has adhesive functions.</li> <li>Synonym: Tumor-associated calcium signal transducer 2, Membrane component chromosome 1 surface marker 1, Cell surface glycoprotein Trop-2, TACSTD2, TROP2</li> </ul> |
| Molecular Weight: | 30.5 kDa   |
| UniProt:          | P09758   |

#### Application Details

| Comment:      | 40-60 kDa             |
|---------------|-----------------------|
| Restrictions: | For Research Use only |

### Handling

| Format:          | Lyophilized   |
|------------------|---|
| Reconstitution:  | Please refer to the printed manual for detailed information.                                  |
| Buffer:          | Lyophilized from a 0.2 $\mu m$ filtered solution of PBS, pH 7.4.                              |
| Storage:         | 4 °C,-20 °C,-80 °C  |
| Storage Comment: | Generally, lyophilized proteins are stable for up to 12 months when stored at -20 to -80°C.   |
|                  | Reconstituted protein solution can be stored at 4-8°C for 2-7 days. Aliquots of reconstituted |
|                  | samples are stable at < -20°C for 3 months.   |
