Datasheet for ABIN7383849

anti-MERS-CoV Nucleocapsid antibody

Overview

Quantity:	50 µL
Target:	MERS-CoV Nucleocapsid (MERS-CoV N)
Reactivity:	Middle East Respiratory Syndrome Coronavirus (MERS-CoV)
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This MERS-CoV Nucleocapsid antibody is un-conjugated
Application:	Western Blotting (WB)

Product Details

Immunogen:	A synthetic peptide corresponding to the center region of MERS-CoV (NCoV / Novel coronavirus) Nucleocapsid Protein (NP protein)
Isotype:	IgG
Specificity:	Anti-MERS-CoV Nucleocapsid Protein Polyclonal Antibody
Purification:	Antigen Affinity

Target Details

Target:	MERS-CoV Nucleocapsid (MERS-CoV N)
Alternative Name:	MERS-CoV Nucleocapsid Protein (MERS-CoV N Products)
Background:	Coronavirus NP, coronavirus Nucleocapsid, coronavirus Nucleoprotein, cov np, ncov NP, novel coronavirus Nucleoprotein, NP, Nucleocapsid, Nucleoprotein, Coronaviruses are enveloped viruses with a positive-sense RNA genome and with a nucleocapsid of helical symmetry.

Target Details

Coronavirus nucleoproteins localize to the cytoplasm and the nucleolus, a subnuclear structure, in both virus-infected primary cells and in cells transfected with plasmids that express N protein. Coronavirus N protein is required for coronavirus RNA synthesis, and has RNA chaperone activity that may be involved in template switch. Nucleocapsid protein is a most abundant protein of coronavirus. During virion assembly, N protein binds to viral RNA and leads to formation of the helical nucleocapsid. Nucleocapsid protein is a highly immunogenic phosphoprotein also implicated in viral genome replication and in modulating cell signaling pathways. Because of the conservation of N protein sequence and its strong immunogenicity, the N protein of coronavirus is chosen as a diagnostic tool.

Application Details

Application Notes: WB 1:1000-1:5000

Restrictions: For Research Use only

Handling

Concentration: 1 mg/mL

Buffer: 0.2 µm filtered solution in PBS

Storage: -20 °C

Storage Comment: Store at -20°C. Avoid freeze / thaw cycles.
