

Datasheet for ABIN7385370  
**MPXV H3L protein (His tag)**

[Go to Product page](#)

## Overview

Quantity:	100 µg
Target:	MPXV H3L
Origin:	Mpox Virus
Source:	Escherichia coli (E. coli)
Protein Type:	Recombinant
Purification tag / Conjugate:	His tag

## Product Details

Purpose:	Monkeypox Virus (MPXV-H3L) Antigen, Recombinant 85%
Characteristics:	MW= 63 kDa,Affinity Purified Recombinant Antigen (His-tag)
Purity:	>85 %

## Target Details

Target:	MPXV H3L
Alternative Name:	MPXV-H3L

## Application Details

Restrictions:	For Research Use only
---------------	-----------------------

## Handling

Buffer:	50 mM Tris-HCl, pH 8.0 with 100 mM NaCl,None
---------	--

## Handling

---

Preservative: Without preservative

---

Storage: -20 °C

---

Storage Comment: ≤ -20°C. Avoid repeated freezing and thawing.
