| $\sim$ |     |      |            |
|--------|-----|------|------------|
|        | N/6 | 1//r | $I \cap V$ |

| Quantity:            | 100 μL   |  |
|----------------------|--|--|
| Target:              | ALT  |  |
| Binding Specificity: | AA 143-417   |  |
| Reactivity:          | Mouse  |  |
| Host:                | Rabbit   |  |
| Clonality:           | Polyclonal   |  |
| Conjugate:           | This ALT antibody is un-conjugated   |  |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP), Immunocytochemistry (ICC) |  |

#### **Product Details**

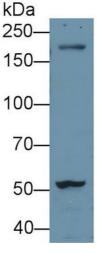

| Purpose:      | Polyclonal Antibody to Alanine Aminotransferase (ALT)  |  |
|---------------|--|--|
| Immunogen:    | Recombinant Alanine Aminotransferase (ALT) corresdonding to Arg143~Gln417 with N-terminal His Tag  |  |
| Isotype:      | IgG  |  |
| Specificity:  | The antibody is a rabbit polyclonal antibody raised against ALT. It has been selected for its ability to recognize ALT in immunohistochemical staining and western blotting. |  |
| Purification: | Antigen-specific affinity chromatography followed by Protein A affinity chromatography   |  |

## **Target Details**

Target: ALT

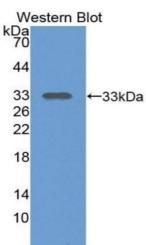

## **Target Details**

| 901 = 0100          |  |  |
|---------------------|--|--|
| Alternative Name:   | Alanine Aminotransferase (ALT Products)  |  |
| Background:         | GPT, ALAT, SGPT, AAT1, GPT1, Serum Glutamic Pyruvic Transaminase, Alanine Transaminase,          |  |
|                     | Glutamate pyruvate transaminase 1, Glutamicalanine transaminase 1                                |  |
| Application Details |  |  |
| Application Notes:  | Western blotting: 0.5-2 μg/mL  |  |
|                     | 1:230-940 Immunohistochemistry: 5-20 µg/mL   |  |
|                     | 1:23-94 Immunocytochemistry: 5-20 μg/mL  |  |
|                     | 1:23-94 Optimal working dilutions must be determined by end user.                                |  |
| Comment:            | The thermal stability is described by the loss rate. The loss rate was determined by accelerated |  |
|                     | thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious          |  |
|                     | degradation and precipitation were observed. The loss rate is less than 5% within the expiration |  |
|                     | date under appropriate storage condition.  |  |
| Restrictions:       | For Research Use only  |  |
| Handling            |  |  |
| Format:             | Liquid   |  |
| Buffer:             | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.                                      |  |
| Preservative:       | Sodium azide   |  |
| Precaution of Use:  | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which                    |  |
|                     | should be handled by trained staff only.   |  |
| Storage:            | 4 °C,-20 °C  |  |
| Storage Comment:    | Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without  |  |
|                     | detectable loss of activity. Avoid repeated freeze-thaw cycles.                                  |  |
| Expiry Date:        | 24 months  |  |
|                     |  |  |
