## **Application Details**

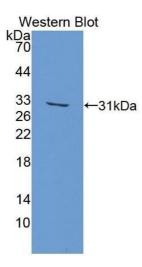

Application Notes:

|               | 20 μg/mL Optimal working dilutions must be determined by end user.  |
|---------------|---|
| Comment:      | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |
| Restrictions: | For Research Use only   |

Western blotting:  $0.5-2 \mu g/mL$  Immunohistochemistry:  $5-20 \mu g/mL$  Immunocytochemistry:  $5-20 \mu g/mL$
