A Disintegrin And Metalloprotease 33 (ADAM33 Products)	
C20orf153, Disintegrin and metalloproteinase domain-containing protein 33	
Western blotting: 0.5-2 μg/mL Immunohistochemistry: 5-20 μg/mL Immunocytochemistry: 5-	
20 μg/mL Optimal working dilutions must be determined by end user.	
The thermal stability is described by the loss rate. The loss rate was determined by accelerated	
thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious	
degradation and precipitation were observed. The loss rate is less than 5% within the expiration	
date under appropriate storage condition.
