# anti-LBP antibody (AA 224-468)

Go to Product page

#### Overview

| Quantity:            | 100 μL   |
|----------------------|--|
| Target:              | LBP  |
| Binding Specificity: | AA 224-468   |
| Reactivity:          | Cow  |
| Host:                | Rabbit   |
| Clonality:           | Polyclonal   |
| Conjugate:           | This LBP antibody is un-conjugated   |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP), Immunocytochemistry (ICC) |

# **Product Details**

| Purpose:          | Polyclonal Antibody to Lipopolysaccharide Binding Protein (LBP)  |
|-------------------|--|
| Immunogen:        | Recombinant Lipopolysaccharide Binding Protein (LBP) corresdonding to His224~Asp468 with N-terminal His Tag  |
| Isotype:          | IgG  |
| Specificity:      | The antibody is a rabbit polyclonal antibody raised against LBP. It has been selected for its ability to recognize LBP in immunohistochemical staining and western blotting. |
| Cross-Reactivity: | Human  |
| Purification:     | Antigen-specific affinity chromatography followed by Protein A affinity chromatography   |

# **Target Details**

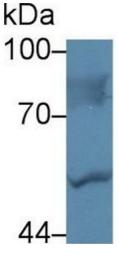

| Target:           | LBP   |
|-------------------|---|
| Alternative Name: | Lipopolysaccharide Binding Protein (LBP Products)   |
| Background:       | LPS-Binding Protein   |
| Pathways:         | TLR Signaling, Activation of Innate immune Response, Cellular Response to Molecule of Bacterial Origin, Positive Regulation of Immune Effector Process, Toll-Like Receptors Cascades, Monocarboxylic Acid Catabolic Process |

# **Application Details**

| , , , p p o a a o  |  |
|--------------------|--|
| Application Notes: | Western blotting: 0.5-5 μg/mL  |
|                    | Immunohistochemistry: 5-20 μg/mL   |
|                    | Immunocytochemistry: 5-20 μg/mL  |
|                    | Optimal working dilutions must be determined by end user.  |
| Comment:           | The thermal stability is described by the loss rate. The loss rate was determined by accelerated |
|                    | thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious          |
|                    | degradation and precipitation were observed. The loss rate is less than 5% within the expiration |
|                    | date under appropriate storage condition.  |
| Restrictions:      | For Research Use only  |
| Handling           |  |

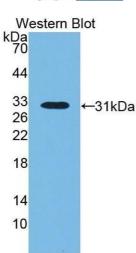

#### Handling

| Format:            | Liquid  |
|--------------------|---|
| Buffer:            | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.   |
| Preservative:      | Sodium azide  |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.  |
| Storage:           | 4 °C,-20 °C   |
| Storage Comment:   | Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles. |
| Expiry Date:       | 24 months   |

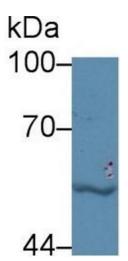

# **Western Blotting**

Image 1. Detection of LBP in Human Hela cell lysate using Polyclonal Antibody to Lipopolysaccharide Binding Protein (LBP)

#### **Western Blotting**

**Image 2.** Detection of Recombinant LBP, Bovine using Polyclonal Antibody to Lipopolysaccharide Binding Protein (LBP)

# **Western Blotting**

Image 3. Detection of LBP in Human Jurkat cell lysate using Polyclonal Antibody to Lipopolysaccharide Binding Protein (LBP)
