## Application Details

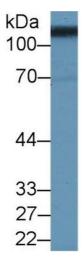

| Application Notes: | Western blotting: 0.5-2 µg/mL  |
|--------------------|--|
|                    | Immunohistochemistry: 5-20 µg/mL   |
|                    | Immunocytochemistry: 5-20 µg/mL  |
|                    | Optimal working dilutions must be determined by end user.  |
| Comment:           | The thermal stability is described by the loss rate. The loss rate was determined by accelerated |
|                    | thermal degradation test, that is, incubate the protein at $37^\circ C$ for 48h, and no obvious  |
|                    | degradation and precipitation were observed. The loss rate is less than 5% within the expiration |
|                    | date under appropriate storage condition.  |
| Restrictions:      | For Research Use only  |
