## Datasheet for ABIN7437437 anti-Trypsinogen Activation Peptide antibody

Overview

| Quantity:    | 100 µL  |
|--------------|---|
| Target:      | Trypsinogen Activation Peptide  |
| Reactivity:  | Human   |
| Host:        | Rabbit  |
| Clonality:   | Polyclonal  |
| Conjugate:   | This Trypsinogen Activation Peptide antibody is un-conjugated   |
| Application: | Immunohistochemistry (IHC), Western Blotting (WB), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

| Purpose:       | Polyclonal Antibody to Trypsinogen Activation Peptide (TAP)  |
|----------------|--|
| Immunogen:     | BSA Conjugated Trypsinogen Activation Peptide (TAP)  |
| lsotype:       | lgG  |
| Specificity:   | The antibody is a rabbit polyclonal antibody raised against TAP. It has been selected for its ability to recognize TAP in immunohistochemical staining and western blotting. |
| Purification:  | Antigen-specific affinity chromatography followed by Protein A affinity chromatography   |
| Target Details |  |
| Target:        | Trypsinogen Activation Peptide   |
| Abstract:      | Trypsinogen Activation Peptide Products  |

| Application Details       |   |
|---------------------------|---|
| Application Notes:        | Western blotting: 0.5-2 µg/mL<br>Immunohistochemistry: 5-20 µg/mL<br>Immunocytochemistry: 5-20 µg/mL<br>Optimal working dilutions must be determined by end user.   |
| Comment:                  | The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. |
| Restrictions:<br>Handling | For Research Use only   |
| Format:                   | Liquid  |
| Buffer:                   | PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.   |
| Preservative:             | Sodium azide  |
| Precaution of Use:        | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.  |
| Storage:                  | 4 °C,-20 °C   |
| Storage Comment:          | Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.   |
| Expiry Date:              | 24 months   |
