Target Details	
Target Type:	Amino Acid
Background:	N,N-Dimethylarginine, NG,NG-Dimethylarginine dihydrochloride, Asymmetric Dimethylarginine
Application Details	
Application Notes:	Immunohistochemistry: 5-20 µg/mL
	Immunocytochemistry: 5-20 µg/mL
	Optimal working dilutions must be determined by end user.
Comment:	The thermal stability is described by the loss rate. The loss rate was determined by accelerated
	thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious
	degradation and precipitation were observed. The loss rate is less than 5% within the expiration
	date under appropriate storage condition.
Restrictions:	For Research Use only
