

Datasheet for ABIN7439855
anti-Progesterone 17-OH antibody

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Progesterone 17-OH
Reactivity:	Various Species
Host:	Rabbit
Clonality:	Polyclonal
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP), Immunocytochemistry (ICC)

Product Details

Purpose:	Polyclonal Antibody to 17-Hydroxyprogesterone (17-OHP)
Immunogen:	BSA Conjugated 17-Hydroxyprogesterone (17-OHP)
Isotype:	IgG
Specificity:	The antibody is a rabbit polyclonal antibody raised against 17-OHP. It has been selected for its ability to recognize 17-OHP in immunohistochemical staining and western blotting.
Purification:	Antigen-specific affinity chromatography followed by Protein A affinity chromatography

Target Details

Target:	Progesterone 17-OH
Alternative Name:	17-Hydroxyprogesterone (Progesterone 17-OH Products)
Target Type:	Hormone

Target Details

Background: 17OHP, 17-OH Progesterone, 17-Alpha-Hydroxyprogesterone

Application Details

Application Notes: Immunohistochemistry: 5-20 µg/mL
Immunocytochemistry: 5-20 µg/mL
Optimal working dilutions must be determined by end user.

Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: PBS, pH 7.4, containing 0.02 % Sodium azide, 50 % glycerol.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C,-20 °C

Storage Comment: Store at 4°C for frequent use. Stored at -20°C in a manual defrost freezer for two year without detectable loss of activity. Avoid repeated freeze-thaw cycles.

Expiry Date: 24 months
