| Comment: | The thermal stability is described by the loss rate. The loss rate was determined by accelerated | | | |
| | thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious | | | |
| | degradation and precipitation were observed. The loss rate is less than 5% within the expiration | | | |
| | date under appropriate storage condition. | | | |
| Restrictions: | For Research Use only | | | |
