Background: PCAN, SLRR5A

## Application Details

---

Application Notes: Western blotting: 0.5-2 µg/mL  
1:500-2000 Immunohistochemistry: 5-20 µg/mL  
1:50-200 Immunocytochemistry: 5-20 µg/mL

Comment: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

Restrictions: For Research Use only
