## Goat anti-Human IgG (Heavy & Light Chain) Antibody (DyLight 650) - Preadsorbed

[Go to Product page](#)

### Overview

|                      |   |
|----------------------|---|
| Quantity:            | 0.5 mg  |
| Target:              | IgG   |
| Binding Specificity: | Heavy & Light Chain   |
| Reactivity:          | Human   |
| Host:                | Goat  |
| Clonality:           | Polyclonal  |
| Conjugate:           | DyLight 650   |
| Application:         | Immunohistochemistry (IHC), Flow Cytometry (FACS), Immunofluorescence (IF), Immunocytochemistry (ICC) |

### Product Details

|                             |   |
|-----------------------------|---|
| Purpose:                    | Goat anti-Human IgG Heavy and Light Chain Cross-Adsorbed Antibody DyLight® 650 Conjugated   |
| Isotype:                    | IgG   |
| No Cross-Reactivity:        | Chicken, Cow, Horse, Mouse, Pig, Rabbit, Rat  |
| Cross-Reactivity (Details): | Less than 1% cross reactivity to chicken, mouse, cow, pig, rabbit, horse, and rat IgG was detected.   |
| Characteristics:            | Anti-heavy- and light-chain antibodies are designed to react with the whole intact Ig molecule. Found in all body fluids and a primary means of protection against infection, an anti-H+L IgG antibody allows for some potential cross-reactivity to other Ig molecules and IgG molecules from other closely-related species. |

## Product Details

Purification:                      Preadsorption: Cross-Adsorbed

## Target Details

Target:                              IgG

Abstract:                         [IgG Products](#)

Target Type:                    Antibody

## Application Details

Application Notes:            IHC: 1:50 - 1:500

ICC: 1:50 - 1:500

IF: 1:50 - 1:500

Restrictions:                    For Research Use only

## Handling

Format:                            Liquid

Concentration:                0.5 mg/mL

Buffer:                            Phosphate Buffered Saline (PBS) containing 0.2 % BSA and 0.09 % Sodium Azide

Preservative:                  Sodium azide

Precaution of Use:            This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage:                          4 °C

Storage Comment:            2 - 8°C

Expiry Date:                    12 months
