## Goat anti-Chicken IgY (Heavy & Light Chain) Antibody (DyLight 755) - Preadsorbed

[Go to Product page](#)

### Overview

Quantity:	0.5 mg
Target:	IgY
Binding Specificity:	Heavy & Light Chain
Reactivity:	Chicken
Host:	Goat
Clonality:	Polyclonal
Conjugate:	DyLight 755
Application:	Immunohistochemistry (IHC), Flow Cytometry (FACS), Immunofluorescence (IF), Immunocytochemistry (ICC)

### Product Details

Purpose:	Goat anti-Chicken IgG (IgY) Heavy and Light Chain Cross-Adsorbed Antibody DyLight® 755 Conjugated
Isotype:	IgG
No Cross-Reactivity:	Cow, Horse, Human, Mouse, Pig, Rabbit, Rat
Cross-Reactivity (Details):	Less than 1% cross reactivity to human, mouse, cow, rabbit, pig, horse, and rat IgG was detected.
Characteristics:	Anti-heavy- and light-chain antibodies are designed to react with the whole intact Ig molecule. Found in all body fluids and a primary means of protection against infection, an anti-H+L IgG antibody allows for some potential cross-reactivity to other Ig molecules and IgG molecules from other closely-related species.

## Product Details

Purification:                      Preadsorption: Cross-Adsorbed

## Target Details

Target:                              IgY

Alternative Name:                IgG (IgY) ([IgY Products](#))

Target Type:                      Antibody

## Application Details

Application Notes:                IHC: 1:50 - 1:500  
    ICC: 1:50 - 1:500  
    IF: 1:50 - 1:500

Restrictions:                      For Research Use only

## Handling

Format:                              Liquid

Concentration:                    0.5 mg/mL

Buffer:                              Phosphate Buffered Saline (PBS) containing 0.2 % BSA and 0.09 % Sodium Azide

Preservative:                      Sodium azide

Precaution of Use:                This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage:                              4 °C

Storage Comment:                2 - 8°C

Expiry Date:                        12 months
