

Datasheet for ABIN7447501 **anti-Albumin antibody**

[Go to Product page](#)

Overview

Quantity:	1 mg
Target:	Albumin (ALB)
Reactivity:	Human
Host:	Goat
Clonality:	Polyclonal
Conjugate:	This Albumin antibody is un-conjugated
Application:	ELISA, Immunohistochemistry (IHC), Immunoelectrophoresis (IEP), Lateral Flow (LF)

Product Details

Immunogen:	Goats were immunized with highly purified human albumin and the resulting antiserum was collected. Antibody was immunoaffinity purified off an albumin containing immunosorbent. Antibody concentration was determined using an absorbance at 280 nm: 1.4 equals 1.0 mg of IgG.
Purification:	Affinity Purified

Target Details

Target:	Albumin (ALB)
Alternative Name:	Albumin (ALB Products)
Pathways:	Lipid Metabolism

Application Details

Application Notes:	This antibody reacts with human albumin as determined by IEP and ELISA techniques. It is suitable for blotting, ELISA, lateral flow and IHC applications. This antibody may cross react with albumin from other species. Optimal working dilutions should be determined experimentally by the investigator.

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Liquid
Buffer:	PBS, pH 7.2
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	4 °C
Expiry Date:	24 months
