

## Datasheet for ABIN7447665 **anti-SAA antibody**

[Go to Product page](#)

### Overview

|              |                                    |
|--------------|------------------------------------|
| Quantity:    | 1 mg                               |
| Target:      | SAA                                |
| Reactivity:  | Human                              |
| Host:        | Mouse                              |
| Clonality:   | Monoclonal                         |
| Conjugate:   | This SAA antibody is un-conjugated |
| Application: | Western Blotting (WB), ELISA       |

### Product Details

|               |                                                                                                                                                                                                                                                                                             |
|---------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | This mouse IgG2a kappa is purified using salt fractionation procedures and Protein A chromatography. It is produced from tissue culture media obtained at our facility in The United States. Antibody concentration was determined using an absorbance at 280 nm: 1.4 equals 1.0 mg of IgG. |
| Clone:        | 1E2                                                                                                                                                                                                                                                                                         |
| Purification: | Affinity Purified                                                                                                                                                                                                                                                                           |

### Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | SAA                                  |
| Alternative Name: | SAA ( <a href="#">SAA Products</a> ) |

## Application Details

|                    |                                                                                                                                                                                                          |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | This antibody reacts with native and recombinant human Serum Amyloid A (SAA) as determined by ELISA and western blot. Optimal working dilutions should be determined experimentally by the investigator. |
| Restrictions:      | For Research Use only                                                                                                                                                                                    |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | PBS, pH 7.2                                                                                                            |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C                                                                                                                   |
| Expiry Date:       | 12 months                                                                                                              |
