**anti-FAM134A antibody (AA 325-375)**[Go to Product page](#)

## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 100 µg                                 |
| Target:              | FAM134A                                |
| Binding Specificity: | AA 325-375                             |
| Reactivity:          | Human                                  |
| Host:                | Rabbit                                 |
| Clonality:           | Polyclonal                             |
| Conjugate:           | This FAM134A antibody is un-conjugated |
| Application:         | Immunoprecipitation (IP)               |

## Product Details

|                       |                                                 |
|-----------------------|-------------------------------------------------|
| Purpose:              | Rabbit anti-FAM134A Antibody, Affinity Purified |
| Immunogen:            | between AA 325 and 375                          |
| Isotype:              | IgG                                             |
| Predicted Reactivity: | Mouse,Rat                                       |
| Purification:         | Affinity Purified                               |

## Target Details

|                   |                                                                                      |
|-------------------|--------------------------------------------------------------------------------------|
| Target:           | FAM134A                                                                              |
| Alternative Name: | FAM134A ( <a href="#">FAM134A Products</a> )                                         |
| Background:       | Background: FAM134A interacts with ATG8 family modifier proteins MAP1LC3A, MAP1LC3B, |

## Target Details

GABARAP, and GABARAPL1. [taken from the Universal Protein Resource (UniProt) Q8NC44].

Gene ID: 79137

UniProt: [Q8NC44](#)

## Application Details

Application Notes: 15-20 µL/mg lysate

Restrictions: For Research Use only

## Handling

Concentration: 1000 µg/mL

Buffer: Tris-citrate/phosphate buffer, pH 7 to 8 containing 0.09 % Sodium Azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C

Expiry Date: 12 months
