### Target Details

Target:	LARP1
Alternative Name:	LARP1 ( <a href="#">LARP1 Products</a> )
Background:	Background: LARP1 (la-related protein 1) is part of a family of proteins that bears a La motif.

## Target Details

---

The La motif was first identified in the La protein which was isolated as an autoreactive antigen in patients afflicted with systemic lupus erythematosus. Like the La protein, LARP proteins appear to be RNA-binding proteins, and are proposed to play a role in translation elongation and termination.
