Target Details

Target:	MTMR12
Alternative Name:	myotubularin related protein 12 (MTMR12 Products)

Target Details

Background: Myotubularin related protein 12 , 3-PAP , PIP3AP,Phosphatidylinositide 3-kinase-derived membrane-anchored phosphatidylinositides, such as phosphatidylinositol 3-phosphate (PtdIns(3)P), regulate diverse cellular processes. The protein encoded by this gene functions as an adaptor subunit in a complex with an active PtdIns(3)P 3-phosphatase. Alternatively spliced transcript variants have been identified, but their biological validity has not been determined.
