

Datasheet for ABIN7466850

anti-LIN28A antibody

_			
()	V/C	rv	٨/

Product Details	·		
Reactivity: Human Host: Rabbit Clonality: Polyclonal Conjugate: This LIN28A antibody is un-conjugated Application: Western Blotting (WB), Immunofluorescence (IF), Flow Cytometry (FACS), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Immunocytochemistry (ICC) Product Details Immunogen: Recombinant protein encompassing a sequence within the center region of human Lin28A. exact sequence is proprietary. Isotype: IgG Cross-Reactivity: Human, Mouse, Pig Purification: Purified by antigen-affinity chromatography.	Target:		
Host: Rabbit Clonality: Polyclonal Conjugate: This LIN28A antibody is un-conjugated Application: Western Blotting (WB), Immunofluorescence (IF), Flow Cytometry (FACS), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Immunocytochemistry (ICC) Product Details Immunogen: Recombinant protein encompassing a sequence within the center region of human Lin28A exact sequence is proprietary. Isotype: IgG Cross-Reactivity: Human, Mouse, Pig Purification: Purified by antigen-affinity chromatography. Target Details		LIN28A	
Clonality: Polyclonal Conjugate: This LIN28A antibody is un-conjugated Application: Western Blotting (WB), Immunofluorescence (IF), Flow Cytometry (FACS), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Immunocytochemistry (ICC Product Details Immunogen: Recombinant protein encompassing a sequence within the center region of human Lin28A. exact sequence is proprietary. Isotype: IgG Cross-Reactivity: Human, Mouse, Pig Purification: Purified by antigen-affinity chromatography. Target Details	Reactivity:	Human

Target: LIN28A	Target Details		
	Target:	LIN28A	
Alternative Name: lin-28 homolog A (LIN28A Products)	Alternative Name:	lin-28 homolog A (LIN28A Products)	
	Background:	Lin-28 homolog A , CSDD1 , LIN-28 , LIN28 , ZCCHC1 , lin-28A,Acts as a 'translational enhancer',	

driving specific mRNAs to polysomes and thus increasing the efficiency of protein synthesis. Its

association with the translational machinery and target mRNAs results in an increased number of initiation events per molecule of mRNA and, indirectly, in stabilizing the mRNAs. Binds IGF2 mRNA, MYOD1 mRNA, ARBP/36B4 ribosomal protein mRNA and its own mRNA. Essential for skeletal muscle differentiation program through the translational up-regulation of IGF2 expression (By similarity). Acts as a suppressor of microRNA (miRNA) biogenesis by specifically binding the precursor let-7 (pre-let-7), a miRNA precursor. Acts by binding pre-let-7 and recruiting ZCCHC11/TUT4 uridylyltransferase, leading to the terminal uridylation of pre-let-7. Uridylated pre-let-7 miRNAs fail to be processed by Dicer and undergo degradation.

Degradation of pre-let-7 in embryonic stem (ES) cells contributes to the maintenance of ES cells. In contrast, LIN28A down-regulation in neural stem cells by miR-125, allows the processing of pre-let-7. Specifically recognizes the 5'-GGAG-3' motif in the terminal loop of pre-let-7. Also recognizes and binds non pre-let-7 pre-miRNAs that contain the 5'-GGAG-3' motif in the terminal loop, leading to their terminal uridylation and subsequent degradation.

Molecular Weight:	23 kDa
Gene ID:	79727
UniProt:	Q9H9Z2
Pathways:	Stem Cell Maintenance

Application Details

Application Notes:	WB: 1:500-1:10000. IHC-P: 1:100-1:1000. FACS: 1:50-1:200. Optimal dilutions/concentrations
	should be determined by the researcher. Not tested in other applications.
Comment:	Positive Control: mouse ESC , hESC
Restrictions:	For Research Use only

Handling

Format:	Liquid
Concentration:	1 mg/mL
Buffer:	1XPBS (pH 7), 1 % BSA, 20 % Glycerol, 0.01 % Thimerosal
Preservative:	Thimerosal (Merthiolate)
Precaution of Use:	This product contains Thimerosal (Merthiolate): a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling

Storage:	4 °C,-20 °C
Storage Comment:	Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid
	multiple freeze-thaw cycles.
