

## Datasheet for ABIN7467300 **anti-ZNF426 antibody**

[Go to Product page](#)

### Overview

|              |                                                                                    |
|--------------|------------------------------------------------------------------------------------|
| Quantity:    | 100 µL                                                                             |
| Target:      | ZNF426                                                                             |
| Reactivity:  | Human                                                                              |
| Host:        | Rabbit                                                                             |
| Clonality:   | Polyclonal                                                                         |
| Conjugate:   | This ZNF426 antibody is un-conjugated                                              |
| Application: | Western Blotting (WB), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

### Product Details

|                   |                                                                                                                             |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Immunogen:        | Recombinant protein encompassing a sequence within the center region of human ZNF426.<br>The exact sequence is proprietary. |
| Isotype:          | IgG                                                                                                                         |
| Cross-Reactivity: | Human                                                                                                                       |
| Purification:     | Purified by antigen-affinity chromatography.                                                                                |

### Target Details

|                   |                                                                                |
|-------------------|--------------------------------------------------------------------------------|
| Target:           | ZNF426                                                                         |
| Alternative Name: | zinc finger protein 426 ( <a href="#">ZNF426 Products</a> )                    |
| Background:       | Zinc finger protein 426 , K-RBP,May be involved in transcriptional regulation. |
| Molecular Weight: | 63 kDa                                                                         |

## Target Details

Gene ID: 79088

UniProt: [Q9BUY5](#)

## Application Details

Application Notes: WB: 1:500-1:3000. IHC-P: 1:100-1:1000. Optimal dilutions/concentrations should be determined by the researcher. Not tested in other applications.

Comment: Positive Control: Raji

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: 1 mg/mL

Buffer: 0.1M Tris-Glycine ( pH 7), 20 % Glycerol, 0.01 % Thimerosal

Preservative: Thimerosal (Merthiolate)

Precaution of Use: This product contains Thimerosal (Merthiolate): a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
