antibodies

## Datasheet for ABIN7467841 anti-EXOC8 antibody

| Overview          |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| Quantity:         | 100 µL                                                                                   |
| Target:           | EXOC8 (EXO84)                                                                            |
| Reactivity:       | Human                                                                                    |
| Host:             | Rabbit                                                                                   |
| Clonality:        | Polyclonal                                                                               |
| Conjugate:        | This EXOC8 antibody is un-conjugated                                                     |
| Application:      | Immunofluorescence (IF), Immunocytochemistry (ICC)                                       |
| Product Details   |                                                                                          |
| Immunogen:        | Recombinant protein encompassing a sequence within the center region of human EXOC8. The |
|                   | exact sequence is proprietary.                                                           |
| lsotype:          | lgG                                                                                      |
| Cross-Reactivity: | Human                                                                                    |
| Purification:     | Purified by antigen-affinity chromatography.                                             |
| Target Details    |                                                                                          |
| Target:           | EXOC8 (EXO84)                                                                            |

| l'arget:          | EXUC8 (EXU84)                                                                           |
|-------------------|-----------------------------------------------------------------------------------------|
| Alternative Name: | exocyst complex component 8 (EXO84 Products)                                            |
| Background:       | Exocyst complex component 8 , EX084 , Exo84p , SEC84,Component of the exocyst complex   |
|                   | involved in the docking of exocystic vesicles with fusion sites on the plasma membrane. |

| Target Details      |                                                                                                  |
|---------------------|--------------------------------------------------------------------------------------------------|
| Molecular Weight:   | 82 kDa                                                                                           |
| Gene ID:            | 149371                                                                                           |
| UniProt:            | Q8IYI6                                                                                           |
| Pathways:           | Peptide Hormone Metabolism                                                                       |
| Application Details |                                                                                                  |
| Application Notes:  | ICC/IF: 1:100-1:1000. Optimal dilutions/concentrations should be determined by the researcher.   |
|                     | Not tested in other applications.                                                                |
| Restrictions:       | For Research Use only                                                                            |
| Handling            |                                                                                                  |
| Format:             | Liquid                                                                                           |
| Concentration:      | 1 mg/mL                                                                                          |
| Buffer:             | 1XPBS ( pH 7), 20 % Glycerol, 0.01 % Thimerosal                                                  |
| Preservative:       | Thimerosal (Merthiolate)                                                                         |
| Precaution of Use:  | This product contains Thimerosal (Merthiolate): a POISONOUS AND HAZARDOUS SUBSTANCE              |
|                     | which should be handled by trained staff only.                                                   |
| Storage:            | 4 °C,-20 °C                                                                                      |
| Storage Comment:    | Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage |
|                     | (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid     |
|                     | multiple freeze-thaw cycles.                                                                     |
