Datasheet for ABIN7468361 **anti-GABA antibody**

Overview

Quantity:	100 µL
Target:	GABA
Reactivity:	Please inquire
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This GABA antibody is un-conjugated
Application:	Immunohistochemistry (IHC), Immunocytochemistry (ICC), Immunofluorescence (IF), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)), Immunohistochemistry (Frozen Sections) (IHC (fro)), Dot Blot (DB)

Product Details

Immunogen:	The immunogen used to generate this antibody corresponds to GABA
Isotype:	IgG
Cross-Reactivity:	Drosophila melanogaster, Human, Mouse, Rat
Purification:	Purified by antigen-affinity chromatography.

Target Details

Target:	GABA
Alternative Name:	GABA (GABA Products)
Target Type:	Amino Acid

Application Details

Application Notes:	ICC/IF: 1:100-1:1000. IHC-P: 1:100-1:1000. IHC-Fr: 1:100-1:1000. Optimal dilutions/concentrations should be determined by the researcher. Not tested in other applications.
--------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Liquid
---------	--------

Concentration:	1 mg/mL
----------------	---------

Buffer:	0.1M Tris-Glycine (pH 7), 20 % Glycerol, 0.01 % Thimerosal
---------	-------------------------------------------------------------

Preservative:	Thimerosal (Merthiolate)
---------------	--------------------------

Precaution of Use:	This product contains Thimerosal (Merthiolate): a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
--------------------	------------------------------------------------------------------------------------------------------------------------------------

Storage:	4 °C,-20 °C
----------	-------------

Storage Comment:	Store as concentrated solution. Centrifuge briefly prior to opening vial. For short-term storage (1-2 weeks), store at 4°C. For long-term storage, aliquot and store at -20°C or below. Avoid multiple freeze-thaw cycles.
