

Datasheet for ABIN7473238 **anti-Aflatoxin antibody**

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	Aflatoxin (AFT)
Reactivity:	Aspergillus
Host:	Rat
Clonality:	Monoclonal
Conjugate:	This Aflatoxin antibody is un-conjugated
Application:	ELISA

Product Details

Immunogen:	Aflatoxin M1-BSA conjugate. Type of Immunogen: Hapten
Isotype:	IgG2b kappa
Specificity:	Recognizes Aflatoxin M1 (AFM1) and Aflatoxin B1 (AFB1). Does not react to BSA and other irrelevant antigens by ELISA.
Purification:	Protein G purified

Target Details

Target:	Aflatoxin (AFT)
Alternative Name:	Aflatoxin (AFT Products)

Application Details

Application Notes: Approved: ELISA

Usage: Suitable for use in ELISA.

Restrictions: For Research Use only

Handling

Format: Lyophilized

Reconstitution: deionized water

Concentration: Lot specific

Buffer: Lyophilized from a solution in 0.01 M PBS, pH 7.2.
