Datasheet for ABIN7478147
anti-Leptospira Biflexa antibody (Biotin)

Overview

Quantity:	1 mL
Target:	Leptospira Biflexa
Reactivity:	Leptospira
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Leptospira Biflexa antibody is conjugated to Biotin
Application:	ELISA, Western Blotting (WB), Immunohistochemistry (IHC), Fluorescence Microscopy (FM)

Product Details

Immunogen:	Whole organism
Isotype:	IgG
Specificity:	All antigens
Purification:	This product consists of purified IgG fraction of neat antiserum covalently coupled with the N-Hydroxysuccinimide ester of biotin under mild conditions to give a high degree of substitution.

Target Details

Target:	Leptospira Biflexa
Abstract:	Leptospira Biflexa Products
Target Type:	Bacteria

Application Details

Application Notes: TITER : >1:500 in indirect FA

Possible applications for this product include avidin and streptavidin amplification systems for immunohistochemistry, ELISA, fluorescence microscopy and immunoblotting. In addition, this product may be used in place of neat antiserum in almost any appropriate antibody-based technique.

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: Lot specific

Buffer: The product is formulated in a phosphate saline buffer (0.01M, pH 7.2) containing 0.1 % sodium azide preservative. No stabilizing proteins have been added.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: Recommended short term (<6 months) storage is liquid at 2-8°C. For longer term storage, aliquot and freeze.
