| Overview                    |  |  |
|-----------------------------|--|--|
| Quantity:                   | 1 mL   |  |
| Target:                     | Vaccinia Virus (VACV)  |  |
| Reactivity:                 | Vaccinia Virus (VACV)  |  |
| Host:                       | Rabbit   |  |
| Clonality:                  | Polyclonal   |  |
| Conjugate:                  | This Vaccinia Virus antibody is conjugated to Biotin   |  |
| Application:                | ELISA, Immunohistochemistry (IHC), Western Blotting (WB), Fluorescence Microscopy (FM)   |  |
| Product Details             |  |  |
| Immunogen:                  | New York City Board of Health (NYCBOH) strain  |  |
| Isotype:                    | IgG  |  |
| Specificity:                | Purified virions   |  |
| Cross-Reactivity (Details): | Does not crossreact with Parainfluenza (1-3), RSV, Adeno, Influenza A&B or HSV1, This antibody is known to react with the B5R and the A33R proteins of the virus. UNINFECTED CELL REACTIVITY: Does not react with uninfected cells. Reactive with the Lister & MVA strains of Vaccinia and Monkeypox |  |
| Purification:               | This product consists of purified IgG fraction of the above antiserum covalently coupled with  |  |

## **Target Details**

| - arget Betane      |   |  |
|---------------------|---|--|
| Target:             | Vaccinia Virus (VACV)   |  |
| Alternative Name:   | Vaccina Virus (VACV Products)   |  |
| Target Type:        | Virus   |  |
| Application Details |   |  |
| Application Notes:  | TITER: >1:1,000 by indirect ELISA. Functions in IFA, IHC & PRNT, Possible applications for this product include avidin and streptavidin amplification systems for immunohistochemistry, ELISA, fluorescence microscopy and immunoblotting. In addition, this product may be used in place of neat antiserum in almost any appropriate antibody-based technique. |  |
| Restrictions:       | For Research Use only   |  |
| Handling            |   |  |
| Format:             | Liquid  |  |
| Concentration:      | Lot specific  |  |
| Buffer:             | The product is formulated in a phosphate saline buffer (0.01M, pH 7.2) containing 0.1 % sodium azide preservative. No stabilizing proteins have been added.   |  |
| Preservative:       | Sodium azide  |  |
| Precaution of Use:  | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.  |  |
| Storage:            | 4 °C,-20 °C   |  |
| Storage Comment:    | Recommended short term (<6 months) storage is liquid at 2-8°C. For longer term storage, aliquot and freeze.   |  |
