Target Details

Target:	IRS1
Alternative Name:	IRS-1 (IRS1 Products)
Background:	Synonyms: HIRS-1, Insulin receptor substrate 1, IRS-1, IRS1 Background: May mediate the control of various cellular processes by insulin. When phosphorylated by the insulin receptor binds specifically to various cellular proteins containing SH2 domains such as phosphatidylinositol 3-kinase p85 subunit or GRB2. Activates phosphatidylinositol 3-kinase when bound to the regulatory p85 subunit (By similarity).
