Datasheet for ABIN7508587  
**WNV E Protein (His tag)**

### Overview

|                               |  |
|-------------------------------|--|
| Quantity:                     | 50 µg  |
| Target:                       | WNV E  |
| Origin:                       | West Nile Virus (WNV)                        |
| Source:                       | HEK-293 Cells                                |
| Protein Type:                 | Recombinant                                  |
| Purification tag / Conjugate: | This WNV E protein is labelled with His tag. |
| Application:                  | SDS-PAGE (SDS)                               |

### Product Details

|                  |   |
|------------------|---|
| Purpose:         | E (DIII) (WNV) Recombinant Protein  |
| Characteristics: | E (DIII) (WNV) (AAF18443, 590 a.a. 696 a.a.) partial recombinant protein with His tag expressed in 293 cells. |
| Purification:    | Mammalian cell (293) expression system  |

### Target Details

|                   |  |
|-------------------|--|
| Target:           | WNV E  |
| Alternative Name: | West Nile Virus E Protein ( <a href="#">WNV E Products</a> ) |

### Application Details

|                    |  |
|--------------------|--|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
|--------------------|--|

## Application Details

---

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Concentration: 1 µg/µL

Buffer: In PBS (25% glycerol, < 0.1% BSA)

Storage: -20 °C
