

Datasheet for ABIN7515905

**Recombinant anti-SNAP25 antibody**[Go to Product page](#)

## Overview

|                |                                                                                                        |
|----------------|--------------------------------------------------------------------------------------------------------|
| Quantity:      | 100 µL                                                                                                 |
| Target:        | SNAP25                                                                                                 |
| Reactivity:    | Human                                                                                                  |
| Host:          | Rabbit                                                                                                 |
| Antibody Type: | Recombinant Antibody                                                                                   |
| Clonality:     | Monoclonal                                                                                             |
| Conjugate:     | This SNAP25 antibody is un-conjugated                                                                  |
| Application:   | Western Blotting (WB), Immunofluorescence (IF), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC) |

## Product Details

|                   |                                                                                        |
|-------------------|----------------------------------------------------------------------------------------|
| Purpose:          | Rabbit recombinant monoclonal antibody raised against human SNAP25.                    |
| Immunogen:        | Original antibody is raised against recombinant protein corresponding to human SNAP25. |
| Clone:            | R07-1D7                                                                                |
| Isotype:          | IgG                                                                                    |
| Cross-Reactivity: | Human                                                                                  |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | SNAP25                                     |
| Alternative Name: | SNAP25 ( <a href="#">SNAP25 Products</a> ) |

## Target Details

|             |                                                                                                                                                                                                  |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Background: | Synaptosomal-associated protein, 25 kDa                                                                                                                                                          |
| Gene ID:    | 6616                                                                                                                                                                                             |
| Pathways:   | <a href="#">Positive Regulation of Peptide Hormone Secretion</a> , <a href="#">Hormone Transport</a> , <a href="#">Synaptic Vesicle Exocytosis</a> , <a href="#">Dicarboxylic Acid Transport</a> |

## Application Details

|                    |                                                                                                                                            |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Immunocytochemistry,Immunofluorescence,Immunoprecipitation,Western Blot,The optimal working dilution should be determined by the end user. |
| Restrictions:      | For Research Use only                                                                                                                      |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | In 50 mM Tris-Glycine, pH 7.4, (0.15M NaCl, 40 % Glycerol, 0.01 % Sodium azide and 0.05 % BSA)                         |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | 4 °C,-20 °C                                                                                                            |
| Storage Comment:   | Store at 4°C. For longer storage, aliquot and store at -20°C.<br>Aliquot to avoid repeated freezing and thawing.       |
