

Datasheet for ABIN7517375

**Recombinant anti-VISTA antibody**[Go to Product page](#)

## Overview

|                |                                                                                   |
|----------------|-----------------------------------------------------------------------------------|
| Quantity:      | 200 µg                                                                            |
| Target:        | VISTA                                                                             |
| Reactivity:    | Mouse                                                                             |
| Host:          | Rabbit                                                                            |
| Antibody Type: | Recombinant Antibody                                                              |
| Clonality:     | Monoclonal                                                                        |
| Conjugate:     | This VISTA antibody is un-conjugated                                              |
| Application:   | ELISA, Immunohistochemistry (IHC), Immunofluorescence (IF), Blocking Peptide (BP) |

## Product Details

|                   |                                                                                                        |
|-------------------|--------------------------------------------------------------------------------------------------------|
| Purpose:          | Rabbit recombinant monoclonal antibody raised against mouse PD-1H Ig fusion protein.                   |
| Immunogen:        | Original antibody is raised against recombinant protein corresponding to mouse PD-1H Ig fusion protein |
| Clone:            | Mam82                                                                                                  |
| Isotype:          | IgG                                                                                                    |
| Cross-Reactivity: | Mouse                                                                                                  |

## Target Details

|                   |                                                  |
|-------------------|--------------------------------------------------|
| Target:           | VISTA                                            |
| Alternative Name: | 4632428N05Rik ( <a href="#">VISTA Products</a> ) |

### Target Details

|             |                                           |
|-------------|-------------------------------------------|
| Background: | RIKEN cDNA 4632428N05 gene                |
| Gene ID:    | 74048                                     |
| Pathways:   | <a href="#">Cancer Immune Checkpoints</a> |

### Application Details

|                    |                                                                                                                           |
|--------------------|---------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Blocking,ELISA,Immunofluorescence,Immunohistochemistry,The optimal working dilution should be determined by the end user. |
| Restrictions:      | For Research Use only                                                                                                     |

### Handling

|                    |                                                                                                                     |
|--------------------|---------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                              |
| Concentration:     | Lot specific                                                                                                        |
| Buffer:            | Lyophilized from PBS with 0.02 % Proclin 300                                                                        |
| Preservative:      | ProClin                                                                                                             |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.   |
| Storage:           | 4 °C,-20 °C                                                                                                         |
| Storage Comment:   | Store at 4°C for 3 months. For long term storage store at -20°C.<br>Aliquot to avoid repeated freezing and thawing. |
