Abstract:	<a href="#">Pancreatic Amylase Products</a>
Background:	<p>Synonyms: PA, AMY2, Pancreatic alpha-amylase, 1,4-alpha-D-glucan glucanohydrolase, AMY2A</p> <p>Background: Pancreatic amylase is a digestive enzyme secreted by the pancreas. It consists of a single polypeptide chain with a molecular weight of 54 kDa. Pancreatic amylase and salivary amylase are the products of separate genes and, although they share 98 % amino acid sequence homology, they differ in molecular size, isoelectric point and antigenic properties. Measurement of amylase concentrations in serum is a diagnostic test for various pancreatic disorders (especially acute and relapsing pancreatitis).</p>
Gene ID:	279
