Datasheet for ABIN7536681
anti-Factor VIII C antibody (HRP)

Overview

Quantity:	0.2 mg
Target:	Factor VIII C
Reactivity:	Human
Host:	Sheep
Clonality:	Polyclonal
Conjugate:	This Factor VIII C antibody is conjugated to HRP
Application:	ELISA, Western Blotting (WB), Immunoassay (IA), Flow Cytometry (FACS)

Product Details

Purpose:	Factor VIII:C Polyclonal Antibody - HRP Conjugated
Immunogen:	Human FVIII (FVIII:C) purified from concentrate.
Isotype:	IgG
Specificity:	Human Factor VIII, F8, FVIII
Purification:	Fractionation of IgG from antiserum

Target Details

Target:	Factor VIII C
Alternative Name:	Factor VIII:C (Factor VIII C Products)

Application Details

Application Notes: Immunoblot 5 µg/mL, ELISA detecting 10 µg/mL

Comment: Whole IgG is a base level product and refers to IgG antibodies purified from antiserum using multiple precipitation and dialysis steps. The purity of the IgG is typically 90% and is provided in a solution of HEPES buffered saline containing 50% glycerol (v/v). The titre is essentially the same as the starting antiserum and each vial typically contains the amount of IgG recovered from one millilitre of antiserum. This level of product is generally intended for use in applications such as immunoprecipitation, immunoelectrophoresis, immuno-depletion and activity neutralization assays.

Restrictions: For Research Use only

Handling

Format: Liquid

Reconstitution: Allow product to warm to room temperature and gently mix before use

Concentration: 2 mg/mL

Buffer: A buffered stabilizer solution containing 50 % (v/v) glycerol

Storage: -20 °C

Storage Comment: Store between -10°C and -20°C
